

## Title - Instructions for abstract preparation for TECH-AIR2016

J.L. First<sup>1</sup>, P.L. Second<sup>2</sup> and J.C. Third<sup>2</sup>

<sup>1</sup>Department of ....., University of Somewhere, City, Postcode, Country

<sup>2</sup>Department of ....., University of Elsewhere, City, Postcode, Country

Keywords: first, second, third, fourth.

Presenting author email: j.first@somewhere.edu

The abstract should be in double column (like this example) and MAX TWO pages long. Use A4 page set-up and make all margins (top, bottom, left, right) 20 mm wide. Start typing text about 7cm from the top of the page. Use 10 pt Times New Roman font (except for the title which should be in 12 pt bold and in sentence case). Centre the title, the authors' names, the addresses, and keywords and contact email address.

Start each paragraph, except the first, with an indent. Justify the body of the text both left and right. Do not use page numbers.

Figures can be in colour or in black and white. Ensure that Figures and Tables have a caption and that they are numbered consecutively.

Table 1. Comparison between theoretical predictions and experimental measurements.

Month	Measured density ( $\mu\text{g}/\text{m}^3$ )	Predicted density ( $\mu\text{g}/\text{m}^3$ )
January	0.4	121
June	2.4	$1.528 \times 10^4$

References should be made in the style (Dickenson, 2005), Marr and Morrissey (2010) or as Curtis *et al* (1996). Examples of references are shown below. Leave a blank line above the list of references, and also above the acknowledgements.

References should be made in the style (Dickenson, 2005), Marr and Morrissey (2010) or as Curtis *et al* (1996). Examples of references are shown

below. Leave a blank line above the list of references, and also above the acknowledgements.

The abstract should be submitted in **pdf format** to the e-mail address **tech-air2016@le.isac.cnr.it**. The deadline for abstract submission is **30/09/2016**.

Figure 1. This is a comparison between theory and experimental data.

This work was supported by the National Council for Aerosol Research under grant JB/005.
