

Submission Information for the IPWG Special Collection

Deadline for Submission – March 31, 2009

Authors who wish to submit to the IPWG Special Collection will need to submit their paper through the AMS' regular submission portal at:

http://www.ametsoc.org/au_upload/pkg.cfm?new=yes

All papers must be submitted via the AMS portal. On this website you need to select '*Journal of Applied Meteorology and Climatology*' from the drop down menu and follow the regular submission process.

IMPORTANT: In the 'Description' field please enter the following text: "This paper is submitted as part of the IPWG Special Collection"

Once you have submitted the paper through this process, please send an email to Ralph.R.Ferraro@noaa.gov with the paper title, authors and date of submission so we can track the paper properly.

Also, I will be working with Ralf Bennartz, JAMC editor, on selecting appropriate reviewers for the papers and we will rely heavily on IPWG membership to assist in this process.
