

## The School

ISSM aims to train the next generation of scientists and operational meteorologists to consider remote measurements from space as a key point for understating and modeling meteorological phenomena. The initiative is open to Ph.D. students in physical, environmental, atmospheric, or related sciences, and early career operational meteorologists and researchers.

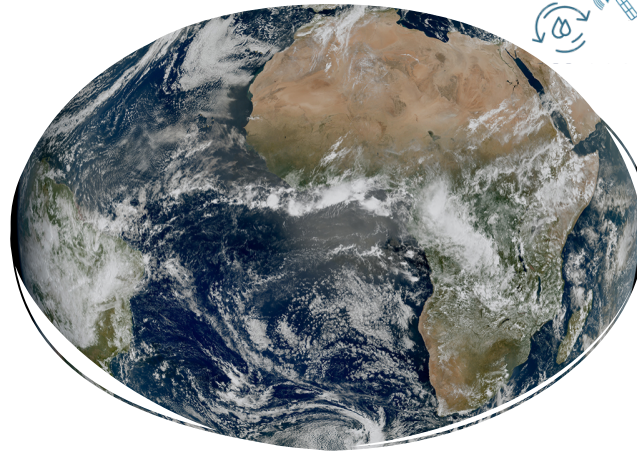

## Registration & Costs

The registration fee is 600€ and includes teaching material, coffee breaks, lunches, and social dinner. The school's fee also includes the excursion to the WMO Italian Climate Observatory "Ottavio Vittori" on the top of Mount Cimone (2165 m).

# 2<sup>nd</sup> International School on Satellite Meteorology

Remote sensing theory and methods, AI and HPC, digital twin models and future satellite missions

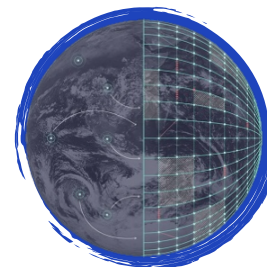

## Deadline and Contacts

Registration deadline: **30 June 2025**
